POLYSTYRENE

The following types of polystyrene must be disposed of SEPARATED and CLEAN at the Ecocentre or at the municipal garage (60 Route Morrison):

- Protective packaging
- Insulation panels (construction)

WELL SORTED, WELL COLLECTED

WASTE

ORGANIC

WASTE + ORGANIC

RECYCLING (BLUE OR GREEN BIN) + ORGANIC

For questions relating to the collection service, contact the municipality
819 681-3390
info@arundel.ca

Let's sort our materials and **reduce** our waste.

Overview of our collections across the MRC:

22%
Brown bin

27%
Blue bin

51%
Black bin

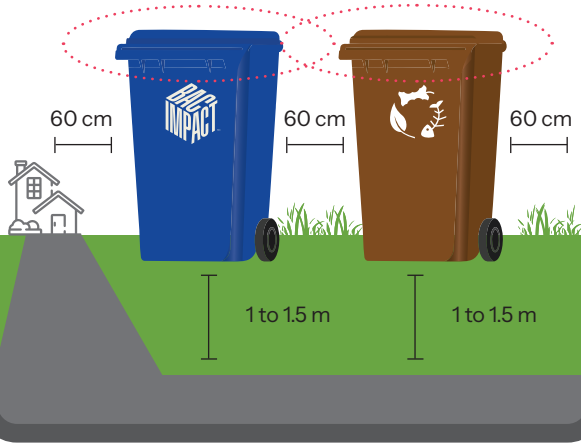

Less than 10% of material is truly destined for landfill*.

* Recyc-Québec, 2025

Positioning of bins

- Place bins at the curb the night before collection
- Place bins with 60 cm (2 ft) of clearance around each bin, handles facing the property
- In winter, clear snow and ice from the lid
- Return bins to the property promptly after collection

ORGANIC

ORGANIC WASTE
IN BULK, PAPER BAGS
OR NEWSPAPER

- FOOD RESIDUE
- GREEN RESIDUE
- SOILED PAPER OR CARDBOARD

Why are compostable plastic items thrown away with the trash?

- It is virtually impossible to distinguish real plastic from compostable plastic
- There is a risk of leaving undegraded fragments in the compost
- There is currently no potential for recycling

RECYCLABLES

UNSORTED AND RINCED

- CONTAINERS
- PACKAGING
- PRINTED MATERIALS

Exceptions:

- Polystyrene protective packaging and packing peanuts (Ecocentre only)
- Aerosol (Ecocentre only)
- Degradable plastic and compostable bags (Waste)

Recycling is gaining ground:

Need help to sort your material?

Download the application
"Ça va où"

WASTE

SMALL ITEMS AT THE END
OF THEIR USEFUL LIFE

that cannot be disposed of in the
Blue/Green or Brown bins, nor at
the Ecocentre, nor can they
be donated to a used item enterprise

Less is More !
